

Hik-Connect App Manual

To download the app

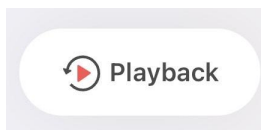

1. From your NVR homescreen, right click your mouse
2. Log in with DVR/NVR username and password
3. At the top of the screen click System (configurations)
4. Click “Network”
5. Click “Advanced”
6. Click “Platform Access”
7. You will see two QR codes. Open the camera of your smartphone and point it to the QR code to download the app. A link will popup on your phone screen, click that.

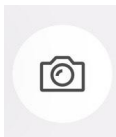

8. Download the app and set up your account
9. Go back to your phone camera and scan the second QR code to connect your NVR to the app

To playback and share footage

1. In the app, double tap on the camera you want to view the playback recording
2. Click on the playback button

3. To view footage from a previous day click on “Today”
4. A callender will pop up, select the day you want and press “Ok” at the bottom
5. Scroll the blue line to the time you wish you view
6. To take a snapshot picture press the camera button

7. To record a clip Press the record button

Tap it again to end the recording

8. Back on the home page of the app tap "Applications" at the bottom

Applications

9. Under "Personal application" tap "Personal Album"
10. You will see your snapshot or clip here, tap on the media you wish to share
11. Tap on the Share button at the bottom right

From here you can save the media to your camera roll or share via email or text

To share camera access

1. Tap the three dots at the top right of the device you wish to share
